Software Engineer — Full-Stack Developer

PROFESSIONAL SUMMARY

Full-stack engineer and MCA student at **IIIT Vadodara** with **1+ year of production experience** across eCommerce and EdTech. Co-delivered a **20,000+ record WordPress-to-Shopify migration**, shipped core **Angular/NestJS** modules for a live platform, and built an IELTS practice platform from scratch.

EDUCATION

Master of Computer Applications (MCA), Indian Institute of Information Technology Vadodara 2026 – 2029

Bachelor of Computer Applications (BCA), Institute of Innovation in Technology and Management (IINTM, GGSIPU) 2022 – 2025

SKILLS

Languages: TypeScript, JavaScript, Python, SQL, HTML, CSS

Frameworks & Platforms: React.js, Next.js, Node.js, Express.js, NestJS, Angular, React Native, Tailwind CSS, Shopify, Liquid

Databases & APIs: PostgreSQL, MongoDB, Redis, Firebase, Supabase, Prisma, REST APIs

Tooling: Git, GitHub Actions, Docker, AWS, GCP, Vercel, Netlify, Postman, Stripe, Razorpay

EXPERIENCE

Software Engineer Intern Oct 2025 – Jul 2026
Betatest Solutions Pvt Ltd (Remote)

- **EarthKind (eCommerce Pest-Control Brand):** Co-delivered a 2-month WordPress-to-Shopify migration; owned database content extraction and restructuring for **1,000+ blogs, 10,000+ orders, 5,000+ customers, and 5,000+ reviews**, mapping legacy data to custom and native Shopify metafields.
- Improved EarthKind's mobile **Lighthouse performance from 41 to 93** through image and CSS optimization, lazy loading, dynamic resource loading, and third-party script optimization including GA4.
- **YouTuneIn (Sound Meditation Platform):** Developed and shipped three core modules—**admin dashboard, newsletter and email system with 40+ reusable templates, and client profile management**—using **Angular** and **NestJS**; implemented role-based permissions, CRUD workflows, file uploads, and automated emails, and resolved a production issue preventing billing details from appearing in the admin dashboard.

Software Engineer (Freelance) Jun 2025 – Sep 2025
IELTS 7+ House (EdTech Platform)

- Architected and built a full-stack IELTS practice platform from scratch using **Next.js 14, Node.js/Express, Firebase**, and **Razorpay**, translating business requirements into a production-ready product.
- Designed the data model and workflows for **30+ IELTS question types** across Reading, Listening, and Writing, including split-layout answering and writing submissions; used by **180+ active students**.

LEADERSHIP & ACHIEVEMENTS

- **Web Lead**, Google Developer Student Club (IINTM) Jan 2023 – Aug 2024
Led web initiatives for a **40-member** developer community; organized **3 workshops and 2 technical talks** and mentored **10 juniors**.
- **Runner-Up**, Matrix TechFest Inter-College Hackathon Oct 2023
Built a healthcare discovery and appointment platform, placing **2nd among 30 teams**.
